

APPEAL MADE TO 1915 GRADUATES

Are Asked to Aid Starving
and Homeless Chil-
dren of Europe.

Boston, Mass., May 17.—The thousands of classes graduating from American schools and colleges this spring are to be given a chance to concentrate their help for starving children in both America and Europe in a "Class of 1915" fund.

The movement recently undertaken by Dr. Charles W. Eliot, president emeritus of Harvard university, and a number of other eminent educators, to interest American school children in some helpful angles of the war, and which has been working under the title of "The Children of America Fund," has taken up specifically the graduating classes of 1915, and issued an appeal to class presidents, which says:

"Over 4,000,000 little children are homeless and starving in this country and Europe.

"Twenty million American boys and girls in colleges and schools are forming into a great relief army under the leadership of the 'Classes of 1915' to help them. They love to live just as you do, but unless America gives them food they will die! Five cents worth of food will give a starving child one day's life. The cost of your class memorial class banquet or class dance will keep many children alive. Will your class join this nation wide movement and give at least part of your class fund this year to save their lives?"

**Our Fleet Must Equal
the Best In the World,
Writes Admiral Dewey**

New York, May 17.—At a banquet to the officers of the Atlantic fleet, given Saturday night by secretary of the navy, Admiral George Dewey expressed the opinion that, also considered, the United States navy is as good as any in the world.

He added:

"Not only is it composed of the finest and most efficient warships that we have ever had, but it is not excelled, except in size, by the fleet of any nation in the world; our officers are as good as any, and our enlisted men are superior in training, education, physical development and devotion to duty to those of any other navy. As president of the general board for the last 15 years, I can say with absolute confidence that the efficiency of the fleet has steadily progressed and has never been so high as it is today."

"However, we need more ships, more officers and more men, and should continue the wise policy of increasing the size of our navy, which must remain our first and best line of defense. This defense, unless adequate, is impossible, and adequacy is not reached until the navy is strong enough to meet on equal terms the navy of the strongest possible adversary."

TRANSYLVANIA REACHES PORT WITHOUT WARNING

The Transylvania is being operated by the Cunard line under charter.

BRITISH WAR OFFICE PUTS BAN ON WEATHER FORECASTS

At the beginning of the war the weather report service was greatly curtailed on orders from the war office, which asserted that it was information highly valuable to the enemy. A brief daily forecast, however, was continued. Even this, it is now pointed out, might prove useful to Germany if used in collaboration with information collected at local centers.

Will Opportunity Find You Fit?

That's the idea—fit physically—fit mentally. And it's largely a matter of right living—which includes the right kind of food.

Grape-Nuts

"There's a Reason" for Grape-Nuts

—sold by Grocers everywhere.

You can't always make everything "just so." Sometimes you will get in more shortening than usual; or make the batter a little thin; or it may not be convenient to put a cake in the oven the moment it is mixed; or your oven may not bake evenly and it is necessary to turn the pan around—none of these little uncertainties make the slightest difference in results if you use

KG BAKING POWDER

This modern, double-raise baking powder has unusual strength and is absolutely certain to raise your biscuits, cakes and pastry, light and feathery. It generates an abundance of leavening gas both in the mixing bowl and in the oven. This rising is sustained until the dough is cooked through.

Housewives who use KG never have "bad luck" with their baking. Try KG at our risk. Your grocer will refund your money if you are not pleased in every way.

No such thing as "rubber roofing"

A lot of manufacturers call their roofing "Rubber Roofing," "Rubberine," "Rubberoid"—Rubber this and Rubber that. The life is all out of rubber if exposed to the daylight for six months. It would be silly to put rubber in roofing, and rubber costs more per pound than roofing sells for for a hundred pounds. There is no such thing as "Rubber Roofing" of any kind. There is no rubber in
